# About MainOne

MainOne is West Africa's leading connectivity and data center solutions provider. We are the first choice for wholesale internet, enterprise services, cloud solutions and managed data services for businesses with global-scale ambitions.

We are an infrastructure based provider with a 7000km submarine cable system from Europe running down the coast of West Africa, a next generation IP NGN network, a growing regional and metro terrestrial fibre optics network and the only Tier III certified data center in West Africa with PCI DSS and ISO 27001. We are also connected to internet exchange points across the globe including IXP, GIX, LINX and AMIX.

Our cost effective and innovative solutions are developed in a collaborative manner such that businesses that partner with us are fully empowered to deliver exceptional services to meet the needs of today's market and also prepare them for tomorrow's growth opportunities.
